

Dawn of a New Nickel Era in Kambalda

Progressing an Integrated Plan to Restart Production

2018 Annual General Meeting

Important Notice Disclaimer

This presentation has been prepared by Mincor Resources NL (**MCR**).

Summary of information: This presentation contains summary information about MCR and its activities current as at the date of the presentation. The information contained in this presentation, whether communicated in writing or orally, is for information purposes only. It is intended only for those persons to whom it is delivered personally by or on behalf of MCR. The information contained in this presentation is of general background and does not purport to be complete. It should be read solely in conjunction with the oral briefing provided by MCR and all other documents provided to you by MCR. The information in this presentation remains subject to change without notice, potentially in material respects. No responsibility or liability is assumed by MCR for updating any information in this presentation or to inform any recipient of any new or more accurate information or any errors of which MCR or its advisers may become aware.

Not financial product advice: The information contained in this presentation does not constitute investment or financial product advice (nor taxation or legal advice) and is not intended to be used as the basis for making an investment decision. In providing this presentation, MCR has not considered the objectives, financial position or needs of any particular recipients. Before making an investment decision prospective investors should consider the appropriateness of the information having regard to their own objectives, financial situation and needs, and seek legal, taxation and financial advice appropriate to their jurisdiction and circumstances.

Disclaimer: No representation or warranty, express or implied, is made as to the currency, accuracy, reliability, completeness or fairness of the information, opinions and conclusions contained in this presentation. Neither MCR, its related bodies corporate, shareholders or affiliates, nor any of their respective officers, directors, employees, affiliates, agents or advisers (each a "**Limited Party**") guarantees or makes any representations or warranties, express or implied, as to or takes responsibility for, the currency, accuracy, reliability, completeness or fairness of the information, opinions and conclusions contained in this presentation. MCR does not represent or warrant that this presentation is complete or that it contains all material information about MCR or which a prospective investor or purchaser may require in evaluating a possible investment in MCR or acquisition of shares. To the maximum extent permitted by law, each Limited Party expressly disclaims any and all liability, including, without limitation, any liability arising out of fault or negligence, for any loss arising from the use of information contained in this presentation including representations or warranties or in relation to the accuracy or completeness of the information, statements, opinions or matters, express or implied, contained in, arising out of or derived from, or for omissions from, this presentation including, without limitation, any financial information, any estimates or projections and any other financial information derived there from.

Important Notice Disclaimer (cont'd)

Future performance: This presentation contains certain forward-looking statements and opinion. Forward-looking statements, including projections, forecasts and estimates, are provided as a general guide only and should not be relied on as an indication or guarantee of future performance and involve known and unknown risks, uncertainties, assumptions, contingencies and other important factors, many of which are outside the control of MCR and which are subject to change without notice and could cause the actual results, performance or achievements of MCR to be materially different from the future results, performance or achievements expressed or implied by such statements. Past performance is not necessarily a guide to future performance and no representation or warranty is made as to the likelihood of achievement or reasonableness of any forward looking statements or other forecast. Nothing contained in this presentation nor any information made available to you is, or and shall be relied upon as, a promise, representation, warranty or guarantee as to the past, present or the future performance of MCR.

Not an offer: This presentation is not a prospectus, product disclosure statement or other offering document under Australian law or any other law (and will not be lodged with the Australian Securities and Investments Commission or any other foreign regulator). This Presentation is not, and does not constitute, an invitation or offer of securities for subscription, purchase or sale in any jurisdiction. In particular, this presentation does not constitute an invitation or offer of securities for subscription, purchase or sale in the United States or any other jurisdiction in which such an offer would be illegal. The securities referred to in this presentation have not been, and will not be, registered under the U.S. Securities Act of 1933 as amended (the “**Securities Act**”) or the securities laws of any state or other jurisdiction of the United States and may not be offered or sold, directly or indirectly in the United States or to any person acting for the account or benefit of a person in the United States unless the securities have been registered under the Securities Act (which MCR has no obligation to do or procure) or are offered and sold in a transaction exempt from, or not subject to, the registration requirements of the Securities Act and any other applicable securities laws. The distribution of this presentation in jurisdictions outside Australia may be restricted by law and you should observe any such restrictions.

Monetary values: Unless otherwise stated, all dollar values are in Australian dollars (A\$).

Mincor Resources – at a glance

- Dominant land position at Kambalda, a world-class nickel and gold mining district
- Multi-pronged strategy to re-establish sustainable nickel mining
- Leveraging off a quality nickel asset base including high-grade Resources of 3.3Mt @ 3.6% Ni (118kT of Ni) and Reserves of 1.1mT @ 2.5% Ni (28kT of Ni)
- Widgiemooltha Gold Project generating cashflow

Board of Directors

Brett Lambert (Non-executive Chairman)

Peter Muccilli (Managing Director)

Mike Bohm (Non-executive Director)

Liza Carpene (Non-executive Director)

Financial Information

Shares on issue ~220m

Share price ~A\$0.36

Market cap (6 Nov 18) ~**A\$79m**

Cash at September 2018 A\$11.2m

Nickel Strategy – integrated mine restart plan

Exploration for new mines (300km² of prospective tenements)

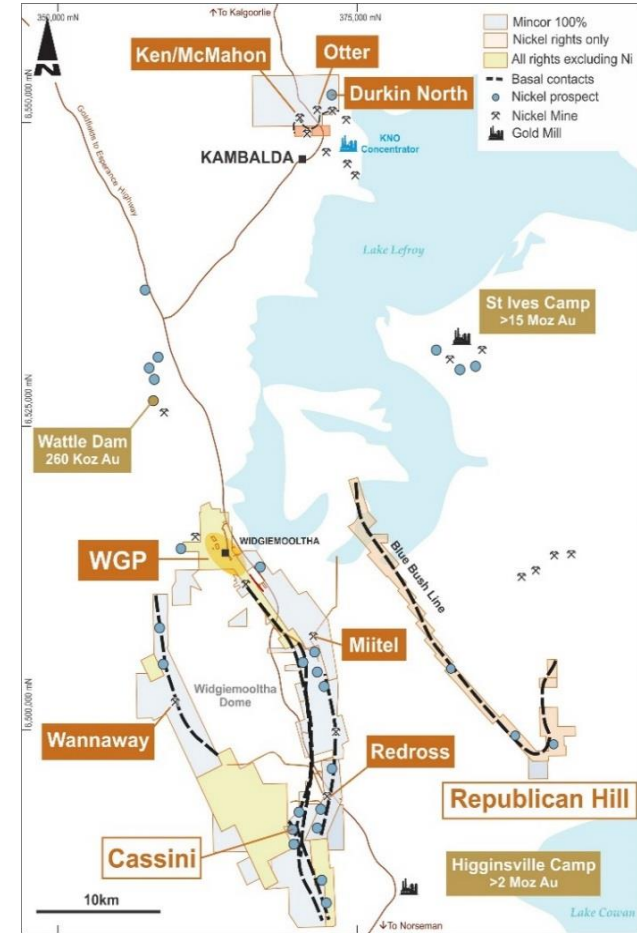

- Ongoing regional exploration, building on the success at Cassini to deliver further growth

New mines and products

- Progressing each element of the mine restart plan including Ken/McMahon, Cassini, Durkin North and Miitel/ Burnett
- Next steps: integrate into an overarching schedule for the district
- Targeting 5 years of Reserves at the time of a restart

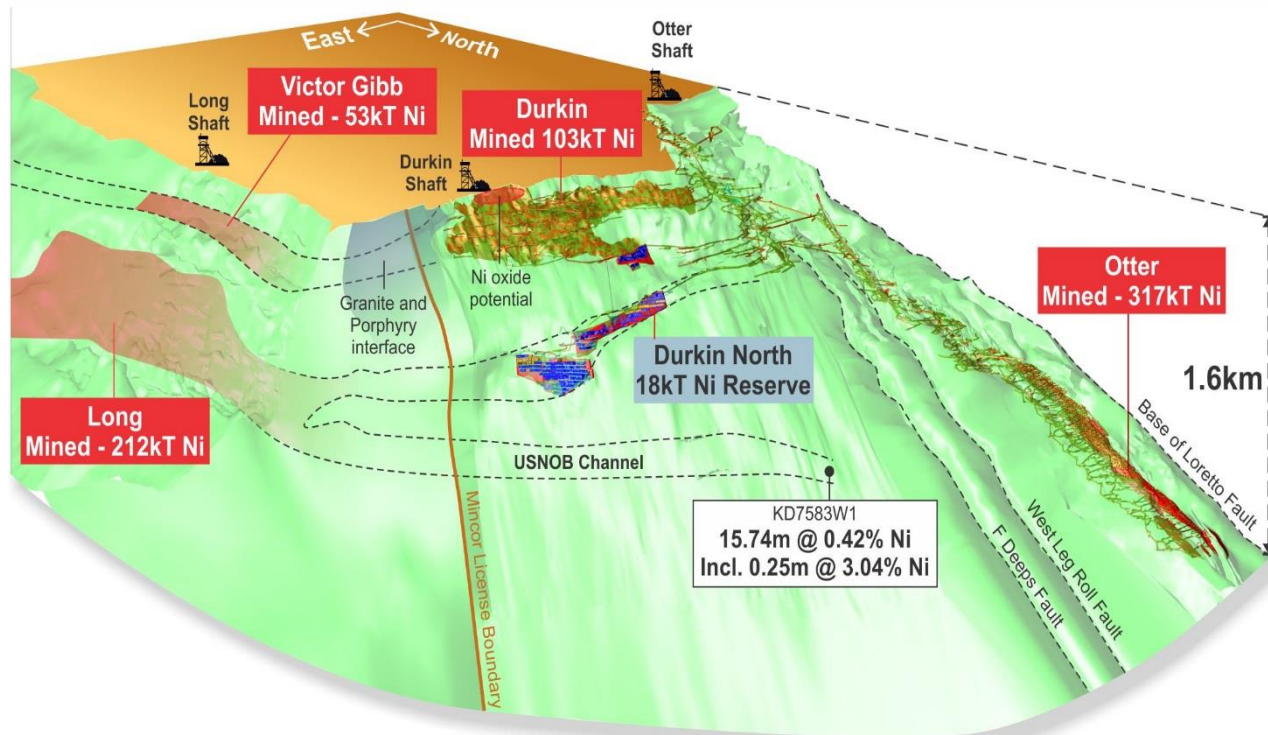

Freedom to market all nickel products (post Feb 2019)

- Strong demand for Ni-sulphide and Ni-oxide products
- Processing options being evaluated include toll milling, with or without concentrate off-take, and an owner-operator mill
- Price discovery, benchmarking and trade-off analysis underway

Kambalda Dome – Durkin North

- **Our largest high-grade Resource:** 427kT @ 5.2% Ni for 22.4kT nickel-in-ore
- **Current Reserve:** 710kT @ 2.5% Ni for 18kT nickel-in-ore
- Initial review of Feasibility Study confirms an increase in Reserve grade is likely with some fine tuning of the mining approach
- This element in the restart plan is effectively ready for a decision to mine

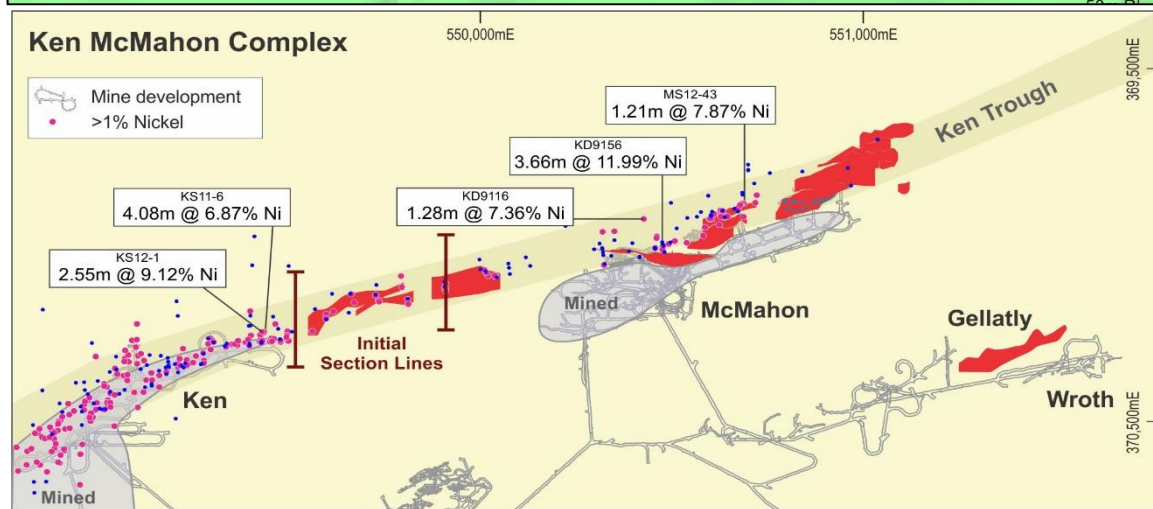

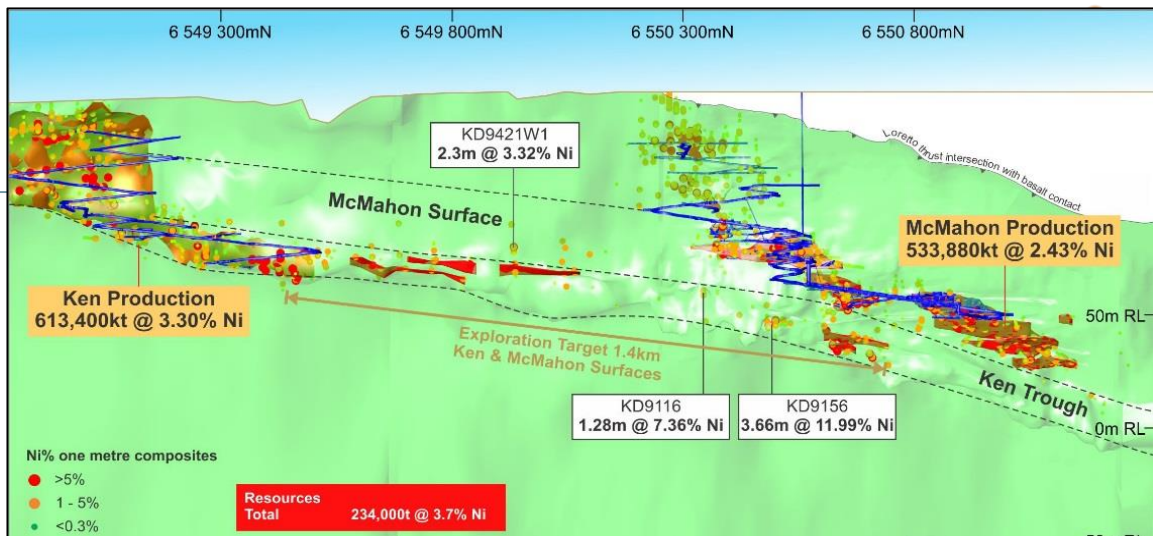

**For further details on Feasibility Study results please refer to ASX Release dated 10 March 2016 and for USNOB results, please refer to ASX release dated 27 October 2009*

Kambalda Dome

– Ken Mine

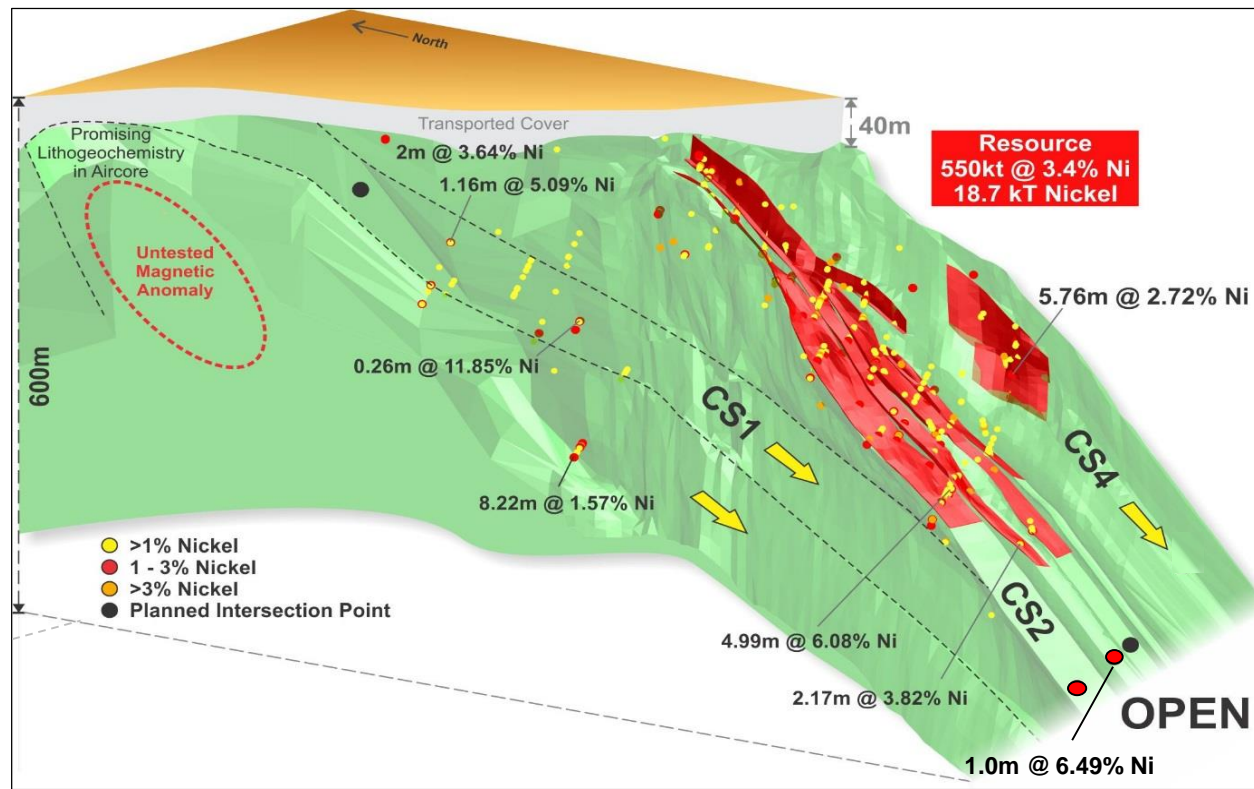

- **Ken/McMahon Resource:**
233kT @ 3.71% Ni for 8.6kT nickel – potential for high grade Reserves
- **Exploration Target:**
500kT–600kT at a grade between 3% Ni and 4% Ni*
- Potential for fast production ramp-up – close to two declines
- Drilling underway

**Please note that the potential quantity and grade of the initial Exploration Target is conceptual in nature and there is insufficient information to estimate a Mineral Resource. It is uncertain that further exploration will result in the estimation of a Mineral Resource. For further details on Exploration Target and exploration results, please refer to ASX Release dated 6 November 2018*

Cassini Project – a new element to the restart plan

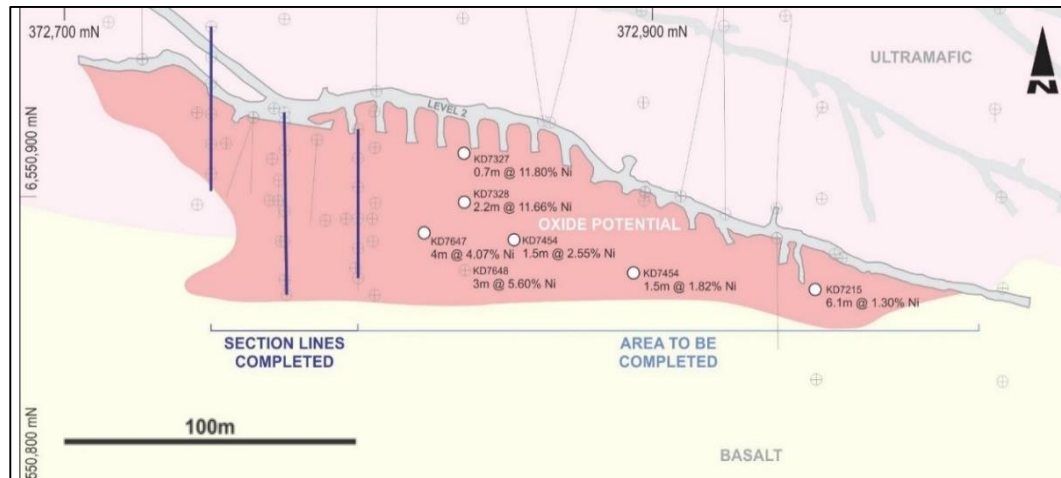

- **Maiden Resource:**
550kT @ 3.4% Ni for 19kT nickel
- Significant Resource upside on several fronts – “tip of iceberg”
- Scoping study well advanced indicating potential for a significant high margin mine
- Initial Pre-Feasibility long lead items underway

For further details on Cassini exploration results, refer to ASX releases dated 1 August 2018, 23 May 2018, 17 May 2018 18 April 2018, 8 March 2018, 5 March 2015, 9 April 2015, 27 November 2014 and September 2018 Quarterly Report.

Durkin Nickel Oxide – potential source of new value

- Shallow high-grade nickel oxide mineralisation confirmed in initial drill program; follow-up program completed
- Potential oxide purchasers undertaking metallurgical testwork
- Exploration Target: 200kT–300kT tonnes at a grade between 3% Ni and 4% Ni identified*
- Targeting the establishment of a maiden Resource

**The potential quantity and grade of the initial Exploration Target is conceptual in nature and based on initial drilling and mapping. There has been insufficient drilling information to estimate a Mineral Resource. It is uncertain that further exploration will result in the estimation of a Mineral Resource.*

For further information, please refer to ASX release dated 15 October 2016.

Aspirational Timeline* – steps to mining

	HY Dec 18	HY Jun 19	HY Dec 19	HY Jun 20	HY Dec 20	HY Jun 21
Explore 	Campaigned Greenfield Nickel Programs					
		USNOB		North Kambalda		
	Ni Oxide					
	Cassini/Ken Resource Definition					
Studies 	Nickel Oxide Concept Study	Scoping and Prefeasibility Studies				
	Cassini Scoping Study	Cassini Prefeasibility Study/Feasibility Study				
	Durkin and Ken Mining Study	North Kambalda Feasibility Study				
	Nickel Processing Options Studies					
Mining 			Ni* Mining Decision	North Kambalda and Cassini Ramp-Up for Nickel Mining		
	Widgiemooltha Gold Project in Production, potential for mine extensions					

**Success-based timeline subject to positive mining studies, assuming new OTCPA in place and receipt of all permitting approvals for mining. Please note an owner-operator mill option will take longer to complete.*

Widgiemooltha Gold Project

Mining underway – first gold poured in July 2018

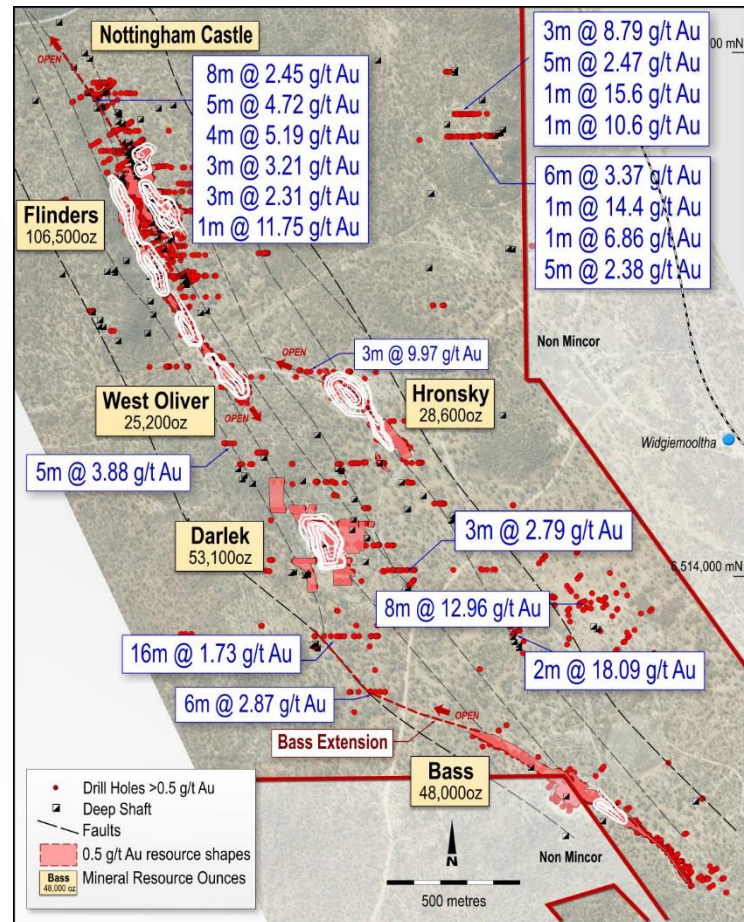

Widgiemooltha Gold Project

- Gold Resources 5.3mT @ 1.9g/t for 323koz of Au*
- Reserves of 870kT @ 2.6g/t for 72koz of Au*
- Mining a series of shallow open cut pits
- 12-month toll milling agreement with Westgold: treatment of 40kT/month to June 2019[#]
- Excellent opportunity to grow and extend Resources with further exploration[^]

* For Mineral Resource and Ore Reserves tabulations, please refer to 27 July 2018 ASX release.

[#] For full Enhanced Feasibility Study (EFS) results, please refer to 16 March 2018 ASX release

[^] For further details on gold exploration results and upside, please refer to June 2016 Quarterly Report.

Summary – ready for a new nickel era in Kambalda

- **Key slice of WA's largest nickel sulphide province**
- **Clear pathway to re-establish nickel mining:**
 - Exploration results are building high-grade Resources
 - Progressing mine studies to a decision to mine
 - Processing options being evaluated – strong demand for products
- **Gold cashflow to help fund nickel strategy**

Appendices

Competent Person Statements

Nickel Mineral Resources as at 30 June 2018

RESOURCE	MEASURED		INDICATED		INFERRED		TOTAL		
	Tonnes	Ni (%)	Tonnes	Ni (%)	Tonnes	Ni (%)	Tonnes	Ni (%)	Ni tonnes
Cassini	-	-	499,000	3.5	51,000	2.6	550,000	3.4	18,700
Redross	39,000	4.9	138,000	2.9	67,000	2.9	244,000	3.2	7,900
Burnett	-	-	241,000	4.0	-	-	241,000	4.0	9,700
Miitel	156,000	3.5	408,000	2.8	27,000	4.1	591,000	3.1	18,100
Wannaway	-	-	110,000	2.6	16,000	6.6	126,000	3.1	3,900
Carnilya Hill*	33,000	3.6	40,000	2.2	-	-	73,000	2.8	2,100
Otter Juan	2,000	6.9	51,000	4.1	-	-	53,000	4.3	2,300
McMahon/Ken	25,000	2.7	103,000	3.1	105,000	4.6	234,000	3.7	8,700

Gellatly	-	-	29,000	3.4	-	-	29,000	3.4	1,000
Voyce	-	-	50,000	5.3	14,000	5.0	64,000	5.2	3,400
Cameron	-	-	96,000	3.3	-	-	96,000	3.3	3,200
Stockwell	-	-	554,000	3.0	-	-	554,000	3.0	16,700
TOTAL	256,000	3.7	2,736,000	3.6	290,000	3.9	3,282,000	3.6	117,900

Notes:

Figures have been rounded and hence may not add up exactly to the given totals.

Nickel Mineral Resources are inclusive of nickel Ore Reserves reported at 0.5g/t cut-off.

* Nickel Mineral Resource shown for Carnilya Hill are those attributable to Mincor – that is, 70% of the total Carnilya Hill nickel Mineral Resource.

The information in this presentation that relates to Exploration Results, Exploration Targets and Mineral Resources is based on information compiled by Mr Hartley, who is a Member of the Australasian Institute of Mining and Metallurgy (AusIMM). Mr Hartley is a full-time employee of Mincor Resources NL. Mr Hartley has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as Competent Person as defined in the 2012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hartley consents to the inclusion in the presentation of the matters based on his information in the form and context in which it appears.

Competent Person Statements

Gold Mineral Resources as at 30 June 2018

RESOURCE	MEASURED		INDICATED		INFERRED		TOTAL		
	Tonnes	Au (g/t)	Tonnes	Au (g/t)	Tonnes	Au (g/t)	Tonnes	Au (g/t)	Ounces
West Oliver	-	-	167,000	2.2	150,000	2.8	317,000	2.5	25,200
Jeffreys Find	-	-	833,000	1.7	322,000	1.5	1,155,000	1.7	61,600
Bass	14,000	3.6	333,000	2.0	387,000	2.0	733,000	2.0	48,000
Hronsky	-	-	250,000	2.5	144,000	1.8	394,000	2.3	28,600
Darlek	-	-	549,000	2.0	342,000	1.6	891,000	1.9	53,100
Flinders	31,000	1.6	1,166,000	2.1	575,000	1.5	1,772,000	1.9	106,500
TOTAL	45,000	2.2	3,298,000	2.0	1,920,000	1.8	5,263,000	1.9	322,900

Notes:

Figures have been rounded to the nearest 1,000 tonnes, 1.0g/t Au and 100 ounces; therefore, may not add up exactly to the given totals.

Gold Mineral Resources are inclusive of gold Ore Reserves reported at 0.5g/t Au cut-off.

It should be noted that a large body of grade control drilling has been completed subsequent to the Resource/Reserve Statements; once fully processed, the statements will be updated.

The information in this Public Report that relates to Exploration Results, Exploration Targets and Mineral Resources is based on information compiled by Mr Hartley, who is a Member of The Australasian Institute of Mining and Metallurgy. Mr Hartley is a full-time employee of Mincor Resources NL. Mr Hartley has sufficient experience that is relevant to the style of mineralisation and type of deposit under consideration and to the activity that he is undertaking to qualify as Competent Person as defined in the 20012 Edition of the Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves. Mr Hartley consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

Competent Person Statements (cont'd)

Nickel Ore Reserves as at 30 June 2018

RESERVE	PROVEN		PROBABLE		TOTAL		
	Tonnes	Ni (%)	Tonnes	Ni (%)	Tonnes	Ni (%)	Ni tonnes
Burnett	-	-	271,000	2.6	271,000	2.6	6,900
Miitel	28,000	2.6	129,000	2.2	157,000	2.3	3,600
Durkin North	-	-	708,000	2.5	708,000	2.5	17,700
Total	28,000	2.6	1,108,000	2.5	1,136,000	2.5	28,200

Figures have been rounded and hence may not add up exactly to the given totals. Resources are inclusive of Reserves.

The information in this presentation that relates to nickel Ore Reserves is based on information compiled by Mr Paul Darcey, who is a full-time employee of Mincor Resources NL and is a member of the AusIMM. Mr Darcey has sufficient experience relevant to the style of mineralisation and type of deposit under consideration, and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr Darcey consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears.

Gold Ore Reserves as at 30 June 2018

RESERVE	PROVEN		PROBABLE		TOTAL		
	Tonnes	Au (g/t)	Tonnes	Au (g/t)	Tonnes	Au (g/t)	Ounces
Flinders	35,000	1.5	405,000	2.8	440,000	2.7	38,700
West Oliver	-	-	103,000	2.4	103,000	2.4	8,100
Hronsky	-	-	126,000	2.7	126,000	2.7	11,100
Darlek	-	-	185,000	2.2	185,000	2.2	13,100
Bass	15,000	3.4	2,000	2.6	17,000	3.3	1,900
TOTAL	50,000	2.0	821,000	2.6	870,000	2.6	72,900

Figures have been rounded to the nearest 1,000 tonnes, 0.1g/t Au grade and 100 ounces; differences may occur due to rounding.

It should be noted that a large body of grade control drilling has been completed subsequent to the Resource/Reserve Statements; once fully processed, the statements will be updated.

The information in this presentation that relates to gold Ore Reserves is based on information compiled by Mr Gary McCrae, who is a full-time employee of Minecomp Pty Ltd and is a member of the AusIMM. Mr McCrae has sufficient experience relevant to the style of mineralisation and type of deposit under consideration, and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2012 Edition of the "Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves". Mr McCrae consents to the inclusion in this presentation of the matters based on his information in the form and context in which it appears.
