

2007 Best Under A Billion

Forbes Asia's annual Best Under A Billion list draws from over 22,500 publicly listed outfits in Asia and the Pacific. Those with less than \$1 billion in sales are vetted for consistent growth of both sales and profits over three years. While 80% of the companies on our list are making their first appearance in 2007, returning outfits show that clear vision and strong management can adapt and persevere in a region of constant change.
