Mincor Further Strengthens Board with Appointment of Experienced Nickel Industry Executive as Non-Executive Director

Mincor Resources NL (**ASX: MCR, “Mincor” or “the Company”**) is pleased to announce the appointment of experienced mining executive and geologist, Mr Peter Bewick B.Eng (Hons), MAusIMM, as an Independent Non-Executive Director, effective 2 December 2019.

Mr Bewick’s appointment brings significant additional technical and geological expertise in the nickel sulphide sector to the Mincor board, which will support the Company’s senior leadership team as it prepares to embark on development and operational readiness activities in Kambalda next year.

Mr Bewick graduated from the Western Australian School of Mines in 1990 and is a geologist with over 25 years of industry experience. He held a number of senior mine and exploration geological roles during a 14-year career with Western Mining Corporation (WMC), including as Exploration Manager and Geology Manager of the Kambalda Nickel Operations and Exploration Manager for the St Ives Gold Operations.

He has also held corporate roles with WMC as Exploration Manager for the Nickel Business Unit and Exploration Manager for North America, based in Denver, Colorado. Mr Bewick is currently the Exploration Director of successful resource generation company, Encounter Resources Limited, and has been a member of the Board since that company’s inception.

Mr Bewick has extensive experience in project generation for a range of commodities including nickel, gold, copper and bauxite. He has been a member of the MERIWA Exploration Advisory Committee since 2013.

Commenting on the appointment, Mincor’s Chairman, Brett Lambert said: “We are delighted to welcome Peter to Mincor. He brings relevant and valuable Kambalda nickel sulphide experience in operations, resource generation and exploration. With Peter’s appointment, I believe the Board now has the ideal diversity of skills required as we embark on the nickel restart strategy, including the development of the first greenfields discovery in the Kambalda district for many years, the exciting Cassini Project.”
